

Hello,

Each week this update will bring you the latest news from eSchools HQ!

As we reach the end of the financial year, we would like to highlight some of the ways you can save money on communications using eSchools!

eSchools will convert text messages into notifications to the eSchools app, which cost nothing! Encourage staff and parents to download the app (which is FREE too)! The more app users you have, the more you save! See how parents download the app [here](#).

Managing your texts can save you more than you think! Use your handy statistics panel on the Text Sender screen to inform you of which text bundle to buy next.

- Need more? Consider a larger bundle for a smaller fee per text.
- Need less? Consider purchasing a smaller bundle. Click [here](#) for more information on text bundles.

If you do not have access to the communication tools, we can enrich your package. Access everything in one place, streamline additional third party providers and make considerable savings! Call our Support Team for information on how to add additional tools.

Tip of the Week: Creating bespoke Groups can assist with direct communications. Once created, simply type in the name of the Group and the campaign will go directly to those involved!

Why not have a go at our weekly quiz? [Click here](#) to see more. Answers to last time's quiz:
1, Old Mother Hubbard 2. Bohemian Rhapsody 3. Necessity 4. Big Mamma's House 5 Oedipus

As always, if there is anything else we can help you with please don't hesitate to get in touch via support@eschools.co.uk or 0845 557 7056. Please stay safe and well.

Many thanks,
The eSchools Team
